FOR VICE-PRESIDENT

LEVI P. MORTON,

OF NEW YORK

TARIFF DIFFICULTIES

Problems to Be Solved by the Senate Sub-committee.

WASHINGTON, Aug. 22. — Senator Jones, of Nevada, is hard at work with the Sub-Committee of the Senate Finance Committee in the preparation of the tariff bill. He said to-day to the California Associated Press correspondent that the difficulties in the way of the preparation of a tariff bill could not be understood by any person who was ignorant of the relations which one industry of the country bears to another industry. The Committee on Finance, Senator Jones said, was working every day upon the bill, but he did not think any bill would be reported to the Senate earlier than September 10, but it might be later even than that date. He thinks Congress will be in session all the Fall. There is some gossip respecting a recess of Congress for four weeks, covering election time, but he seems to be no foundation for the rumor.

Henry George makes the following remarkable statement in his paper, the Standard, of date Saturday, Aug. 19:

As an indication of the temper at the Democratic headquarters, I am informed by Doun P. t., editor of Belford's Magazine, that he called there a few days ago with Mr. Robert Belford, publisher of the magazine. They met there Col. Tracy, one of the confidential men in charge of an important department. Col. Platt said to Col. Tracy: "From information received from the agents of Belford, Clarke & Co., who have been instructed to inquire into and report on the condition of the country politically, I have learned that we have at the present lost Connecticut and New Jersey beyond doubt, and that we will lose New York unless something is done." Col. Tracy replied: "It is of no use; we need not try to blind ourselves to the fact that we cannot stand up against the cry of 'free trade.'"

The Col. Tracy here referred to is the editor of the New York Star, a Simon-pure Democratic organ. Mr. George, who is a strong advocate of Cleveland's election, is himself seriously alarmed at the situation. He attributes the want of confidence of the Democrats to the fact that in the official lead of the canvass are "men who are against him upon the issue [the tariff] upon which he must win or lose." George adds: "How he [Cleveland] came to consent to the appointment of a protectionist like Barnum to the Chairmanship of the National Committee, is a matter that passes comprehension. But there Barnum is, and Democratic protectionists seem to have control of the Executive Committee."

The Northern Pacific has completed the sale of about \$35,000,000 of its securities. The price is not made known. The sale is to a syndicate headed by Henry Villard. The bonds will go to Europe, where the bulk of the third mortgage is already held. The transaction is said to extinguish the floating debt, and leave something less than \$2,000,000 in the treasury to be expended in improvements. An independent company, with a capital of \$3,000,000, has been formed for the purpose of supplying the railroad with equipment. Large orders for engines and cars have been placed. The equipment company is composed of large stockholders and Directors of the Northern Pacific organization, and the railroad is not bound for anything beyond the rental of equipment furnished it.

There is a growing demand for Government lands in Northern California, and not only are well-to-do settlers pouring in to this portion of the State, but it is also a significant fact that strangers from the East are very attentive in their inquiry relative to the advantages of the northern region. The coming year promises great things for the State in general, and Northern California in particular.

Mayor Francis, of St. Louis, has been nominated by the Democratic State Convention for Governor of Missouri. A nomination is equivalent to an election, and the JOURNAL is pleased that such an estimable gentleman as Mayor Francis will be the next Governor.

STEWART'S ATTACK.

The Explanation of Commissioner Stockinger.

WASHINGTON, Aug. 22d.—In answer to Senator Stewart's attack on the Land Office yesterday, Commissioner Stockinger made the following statement to-day: "I have read the personal explanation made by Senator Stewart yesterday. If the Senator will examine the interview referred to by him and my letter to Burns he will find that no reflection was cast upon him in either one of them. Senator Stewart's name is not mentioned by me except incidentally, the same as other members. The Senator is pleased to charge, however, that I falsely stated that he was actuated by a consideration for mining and railroad corporations, and that I had outraged myself and disgraced my office by relying upon false statements to attempt to brand him thus."

OFFERS OF COMPROMISE.

"As before remarked this is simply imagination, and yet since the Senator has been pleased to make this statement it might not be amiss to say that if he will recall the fact he will remember that two gentlemen representing some of these corporations called at the Land Office, and were presented by him but a short time ago. These offered to pay a large sum to compromise trespass as committed upon public lands. He will also recollect that I refused to do so, upon the ground that it would be necessary to have a special agent examine and report as to the extent of the trespass, and that they insisted upon having an immediate examination."

SWORN STATEMENTS.

"The information which I have, and which the Senator says is false, is furnished by two sworn officials of the Federal Government and citizens of Nevada of high standing, as well as by the written proposition of compromise made by some of these corporations. Its truth or falsity will be developed if the investigation goes on."

"SPECIAL ISSUE NO. 24"

The Pawtucket (Rhode Island) Gazette and Chronicle remarks:

In a special report made to the State Department at Washington, "for the use of the press only," by J. Schoenhof, Consul, and dated at Tanstall, England, June 5, 1888, is given the cost of manufacturing what Mr. Schoenhof calls the same class of all wool dress goods in England and Massachusetts. The report gives the different items of cost, the largest of which is the wool from which the goods were made.

The American goods were made from Ohio and Michigan fleeces that cost thirty-five cents a pound, and the English goods from Cape or Sidney wool, for which the English manufacturers paid six and one-half pence, or thirteen cents per pound. Among the other items of cost given by the Consul is that of dyeing, which is put down at nine cents in America and eight cents in England, for dyeing a pound of the goods. This statement of the difference in the cost of dyeing the goods in the two countries must strike every person that has ever been inside of a dye-house or has any knowledge of the cost of dyeing, as simply absurd, and shows how much value can be placed on such reports. There cannot be any such difference in the cost of dyeing, and this with other portions of the report shows that it was made at this time at the request of some party interested in the passage of the Mills bill. Again, if this statement is true, why have the free-traders been shouting long and loud for years past that dyestuffs must be placed on the free list in order to enable the American dyer to produce colors as cheaply as they are produced in England?

The statement in regard to the cost of wools from which the goods were made, if true, will show any wage worker and wool grower what the Mills bill will do for them. Should the Mills bill become a law, the farmers in Ohio and Michigan, as well as in the other States where now more than 300,000,000 pounds of wool are raised annually, will be forced to give up the business of wool raising, or sell what they raise at less than thirteen cents a pound, or about one-third of its value last December, for the sole benefit of the English wool grower and the commission merchant.

We leave it to our readers to picture for themselves the disastrous results which must follow the breaking down of the wool growing industry in this country by members of Congress who have given their votes for a law framed and advocated by men working for the upbuilding of England and against the true interests of the laboring men of America.

But it may be said that English dress goods made from wool costing thirteen cents a pound will not compare in quality with the American goods. Mr. Schoenhof says the English goods "excel in beauty of finish, and are more glossy and brilliant" than the Massachusetts goods, and yet the Providence Journal and other papers that favor free wool indorse in the strongest terms Consul Schoenhof's report and tell their readers that the quality of wool to come in free under the Mills bill will not come in competition with wool raised in the West.

Where Old Soldiers feel at Home.

Des Moines Register: It is a good year for the private soldier—Private Eifer is the Republican candidate for Governor of Illinois and Private Chase is the Republican candidate for Lieutenant Governor of Indiana. Any Union soldier, whatever his rank, is worthy of the regard of the Republican party, and he gets it. It is only the Democratic Administration that draws the line on Union soldiers.

A ROLLING STONE GATHERS NO MOSS.

Yet Many Moss-Backed Bourbons Seek a Better Resting-Place.

Judge Wheeler of Red Bank, N. J., a supporter of Cleveland in 1884, is now on the stump easily convincing his fellow-citizens that he made a mistake four years ago.

In Gloversville and Amsterdam, N. Y., the leading men are out for Harrison and Morton. Among the many converts are W. A. Lansing, O. H. Bane, W. A. Sears, Morgan Snell and L. L. Dean.

Of 450 voters in the large dry-goods house of H. B. Cludlin & Co., New York, 315 are for Harrison and Morton, and of these fifty-seven voted for Cleveland four years ago, three for St. John, and one for Butler.

Mr. Dudley Baldwin of Cleveland, an old Jacksonian Democrat who voted for Van Buren in 1840, writes to the Leader that he will vote this year just as "Old Hickory" would if he were alive—for Harrison and Morton.

M. J. Cummings of New York worked hard for Cleveland in 1884. He formed a Business Men's Democratic Club in the dry-goods district, and marched at the head of them in the big parades of that year. He is now out for Harrison and Morton.

Ex-School Commissioner Lawrence G. Goulding, an influential Irishman of New York, has declared in favor of the Republican gospel. It is growing daily more evident that the sons of Erin can never more be counted on as a tail to the Democratic kite.

The Valley Register of Nelsenville, O., which has hitherto been Democratic, comes out for Morton, and Victory. Its editor, J. A. Fuller, writes Chairman Capeller of the State Committee that he knows of eighteen or twenty old-line Democrats in his vicinity who have bolted Cleveland.

Here is a straw picked up by a Democrat and most reluctantly furnished: In the packing department of a large firm in New York a canvass was recently taken and the voters, all workmen, responded as follows: Harrison and Morton, 64; Cleveland and Thurman, 20. Four years ago these men voted 74 for Cleveland and 10 for Blaine. And so the wonderful changes are going on.

Barney G. McCalmont of Bradford, Pa., for years the Democrats' ablest leader in McKean county, is now working hard for Harrison. Mr. McCalmont has been to every ratification meeting held so far in the county. He did not come over to the Republicans alone, but has a great many followers who will stick to him and vote as he does. An Irish Republican club, just organized in the county with a large membership, is making great holes in the enemy's ranks.

A special from Anderson, Ind., says that Hector of Union Township, Mr. McKnapp of Middletown, and Solomon Myers and Levi Conners, all old Democrats, have declared allegiance to the party which saved the Union. Mr. McKnapp, who has been a Democratic leader and officeholder, is making ringing speeches for Harrison. He fought in the war and cannot vote for a man distinguished only by vicarious patriotism and hatred of the real soldier.

The following influential citizens of Troy, N. Y., have forsaken Democracy and will vote for Harrison: Ex-Congressman J. M. Warren, ex-Mayor Geo. B. Warren, ex-Mayor W. L. Van Alstyne, ex-Controller John D. Spicer, James O'Neil, Pierce Kane and Stephen W. Baker. Mr. Kane is a brother of the late Congressman Kane of the Albany district and a manufacturer. O'Neil and Baker are also manufacturers, and the latter is one of the stockholders and trustees of the Democratic Troy Press, of which he is one of the founders.

That the Prohibition party contains sincere and honest voters is abundantly proved by the way of them, without deserting their principles, are coming over to the Republican ranks. The latest notable convert in Ohio is the Rev. B. B. Lewis, editor of the New Holland Plain Talk, and last year a member of the Prohibition State Committee. Mr. Lewis says he is no less a believer in the principle of the prohibition of the liquor traffic than he was a year ago, but he has become thoroughly disgusted with the gang that is steering the Prohibition ship, many of whom are Prohibitionists for revenue only. Many of the rank and file in his vicinity have followed Mr. Lewis into the Republican camp.

John Neeson, of Buffalo, a life-long Democrat, Vice-President of the Emerald Association, and President of an association of former soldiers in the regular army, says: "I'm a Democrat, but I'm not for Cleveland. The trouble with Cleveland is he is not Democrat enough for me. I think it was an insult to our race the way Grover Cleveland toadied to Chamberlain and his flunkies. I say there's no Irishman with a drop of good Irish blood in his veins who'll vote for this man Cleveland." Mr. Neeson wears a Harrison and Morton badge. He was one of the body guard to Editor O'Brien when he was in Canada and was incarcerated in Hamilton on his account as a suspect. He has wide influence among Buffalo Irishmen.

Cohoes, N. Y., comes to the front with men of prominence who are convinced that their political duty lies in the time with the tenets of the Republican party, although they have all been Democrats for a long time. Among the many are Jonathan Hiler, proprietor of the American Hosiery Mill; Charles F. North, of the Anchor Hosiery Mill; Charles F. Doyle, of the Anchor Hosiery Mill; David Akim and W. H. Akim, the firm of W. H. and D. Akim, and David Field and Herman Bushowitz, the firm of Field & Bushowitz. Of the above gentlemen, Mr. Hiler has held office as a Democrat ever since Cohoes was incorporated as a village, and worked for Cleveland in 1884. Mr. North has been Alderman and Chamberlain, being now a Democratic member of the Public Board. Mr. Doyle has been Rearrider by Democratic appointment and Democratic candidate for Mayor. The others are manufacturers long and fully identified with the Democratic party.

Ahead of All Competitors.

St. Louis Globe-Democrat: In the race for the Burchard belt the Blatant Blatherskite Brooks of the Prohibition ticket seems to be two or three laps ahead of all competitors. He is doing noble work for the Republicans throughout the country just now.

We Gather Them In.

Baltimore American: The American party has split, the Labor Union party has split, and the Free Trade party is splitting, but still the Republican party holds its own and quietly gathers in the splinters from the others.

A Sure Anti-Fat Recipe.

New York Press: "How to grow lean," is now widely discussed by scientists. We know of no better way than hunting for civil service reform under Grover Cleveland.

I am a high tariff man and protectionist, and for the reason that I am an American and a friend of American labor. No workingman has ever called for a reduction and no reduction should be made until it is demanded by the people. We need no tariff tinkering. We want protection from one end of the country to the other; touch not the tariff, raise tariff so high that not a single foreign article of foreign manufacture can come in.—T. V. Powderly, General Master Workman, Knights of Labor.

Judge Yellott, who was elected County Judge of Baltimore County, Maryland, on the Democratic ticket, announces his purpose to vote for Harrison and Morton because of the free trade issue.

The Waukesha (Wis.) Freeman says that A. C. Vanderpool of Vernon, hitherto a steadfast Democrat, announces his purpose of voting for the Republican candidates this year.

Of 200 members of a Youngstown, O., Republican club thirty-eight have hitherto always voted the Democratic ticket.

One Black Drop.

Byron was wise when he wrote, "A drop of ink may make a million think." This is indeed true when the black fluid is used to enlighten the world on the merits of Dr. Pierce's Golden Medical Discovery. Let consumptives everywhere hear the glad tidings. Try it all, who breath in pain and toss in fever through the long night hours. You will find the cough gone and sleep as balmy as a child's will visit your pillow. You will thank the drop of ink that brought the message of mercy to you.

\$500 Reward.

So confident are the manufacturers of Dr. Sage's Catarrh Remedy in their ability to cure chronic nasal catarrh, no matter how bad or of how long standing, that they offer, in good faith, the above reward for a case which they cannot cure. Remedy sold by druggists at 50 cents.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the Throat and Lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the heart, causing Catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your Throat, Lungs or Nostrils, obtain a bottle of Boecher's German Syrup. It will give you immediate relief.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mr. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-st 1876

BREVITIES

C. Derby was here yesterday.
D. H. Haskell was in town yesterday.

John Sparks and family have gone to Tahoe to spend a few days.

Miss Belle Goddard, of Carson, was a passenger for the Bay last night.

The Sacto Tunnel Company's royalties for the month of July were \$20,038.

Colonel W. S. Wilson has struck another large body of ore in his mine at Mayville.

Remember the dance at Laughton's to-night. Besides the ride home by moonlight will be jolly.

The shipment of \$38,087 96 from Con. Virginia just reported, brings total for the month to date up to \$70,546 41.

The Reno flour mills have advanced the price of flour to \$6 per barrel, all on account of the rise in wheat in the San Francisco market.

James G. Fair has contracted for the erection of a 20-stamp mill on his newly acquired quartz property at Humboldt canyon, Placer county.

Gen. Evans has located his office on the box in front of Tom Barnett's. Once in a while Capt. Gilson gets there first, but as a rule the Gen. is on top, and remains despite the fact that Tom pesters him with chestnuts.

REWARD FOR HAMPTON'S BODY.—A reward of \$1,000 has been offered for the recovery of Mr. Hampton's body by San Franciscans, and a party of divers are now searching for it in the vicinity of the wreck of the ill-fated City of Chester. The depth of water where the steamer sank is estimated at from 50 to 70 fathoms. If the body of Mr. Hampton is recovered in the steamer after the steamer sink there will be no difficulty in the divers recovering it, but if it floated out when the steamer went down its recovery is extremely doubtful. Of the \$1,000 offered for the recovery of Hampton's body \$500 is offered by Gage, Curtis & Co., of San Francisco, of which firm he was a member. At the time he was drowned Mr. Hampton had on his person a solitary diamond shirt stud valued at nearly \$1,000, a diamond set ring valued at \$450, and a watch and chain valued at \$350.

SENATOR STEWART.—In a letter to Judge Wells, dated August 12th, U. S. Senator Stewart says: "I shall be out in Nevada as soon as Congress adjourns to take a hand in the fight. As to the National ticket, I am confident that no better nominations than Harrison and Morton could have been made, and with them as our leaders we are sure to sweep the country." In regard to the Indian war claims he says: "I hope to be able to secure the passage of my bill at this session providing for the payment of the Piute war claims passed upon by the Board of Examiners early in 1895."

A NEW MILL.—An eastern mining company has just completed a new ten-stamp mill at Old Oreana on the Humboldt river. The mill is run by steam power, and the machinery and ore have been sufficiently tested. The company's mines are located in Trinity District about eight miles from the river. The ore carries gold and silver and is free from base metals. The first run was entirely satisfactory. They have plenty of ore at the mines to keep running steadily.

THE NEW CARD.—The new Southern Pacific time-card will go into effect the 1st, and for the first time in the history of the road the trains will do Reno some good. The overland going East will arrive in Reno at 7 and leave at 7:30 in the morning, and going West will arrive at 6 and leave at 6:30 in the evening. The "lightning" will leave Reno at 6:30 in the morning and arrive at 8:40 in the evening. The morning trains will pass each other at Laughton's.

DANCE AT LAUGHTON'S.—There will be a dance at Laughton's Springs tomorrow night, the music being provided by Hastings' Cornet Band. The hop will no doubt attract a crowd, and the occasion prove one of enjoyment throughout.

NEVADA LIVE STOCK ASSOCIATION.—A meeting of the Executive Committee of the Nevada Live Stock Association, will be held at Reno, September 19th. A full attendance is desired.

Syrup of Figs

Is Nature's own true laxative. It is the most easily taken, and the most effective remedy known to cleanse the system when Bilious or Costive; to dissipate Headaches, Cold and Fevers; to Cure Habitual Constipation, Indigestion, Piles, etc. Manufactured only by the California Fig Syrup Company, San Francisco, Cal. Sold by Wm. Pinniger, Reno.

SENATOR STEWART.

Assertions Which He Says Are False.

WASHINGTON, August 21. — Senator Stewart's bill requiring the Secretary of War, through the Board of War Claims Examiners, to ascertain and report what amount of money was expended by each of the States of California, Oregon and Nevada when a Territory, for all military purposes connected with the war of the Rebellion, Indian wars during the rebellion, and for guarding the overland mail and emigrant routes, passed the Senate to-day.

Senator Stewart some time ago offered the following amendment to the Sundry Civil Appropriation bill, which was adopted and is now pending before the Conference Committee:

"That no part of the money appropriated by this Act shall be used in the investigation of any case or the prosecution of any person in the mining regions of the United States for cutting for mining or domestic purposes dwarfed or scrubby timber unfit to be saved or hewed into lumber of commercial value."

Senator Stewart explained this amendment by reading the existing law and stating that it was not now unlawful, as he construed the law, for persons to cut scrubby timber in the mining regions for mining purposes; but that there had been some months ago prosecutions instituted against some Italians in his State for cutting timber in the mining regions for mining purposes, and that his amendment was for the purpose of continuing the construction of the statute which had been sanctioned for many years. The statute to which he referred was passed June 3, 1878, and is as follows:

"That all citizens of the United States and other persons, bona fide residents of the States of Colorado and Nevada, or of either of the Territories of New Mexico, Arizona or Utah, Wyoming, Dakota, Idaho, Montana, and all other miners. Strangers of the United States, shall be and are hereby authorized and permitted to fell and remove for building, agricultural, mineral or other domestic purposes, any timber or other trees growing or being on the public lands, said lands being mineral and not subject to entry under the existing laws of the United States, except for mineral entry, in either of the said States or Territories or districts of which such citizens or persons may be at the time bona fide residents, subject to such rules and regulations as the Secretary of the Interior may prescribe for the protection of the timber and of the undergrowth growing upon such lands, and for other purposes; provided, that the provisions of this Act shall not extend to railroad corporations."

Yesterday an attack was made upon Senator Stewart in the New York Herald on the authority of Mr. Stockslager, the Commissioner of the General Land Office, in which it was represented that Senator Stewart's amendment was in the interest of foreign corporations, timber thieves and rascals generally, and that Senator Stewart offered it for the purpose of enabling criminals to escape just punishment, and for the purpose of superceding prosecutions against the rich corporations in Eureka, Nev., known as the Richmond and Eureka Mining Companies, who, it was alleged, had robbed the Government of many millions.

Senator Stewart had these articles in the Herald read at the clerk's desk in the Senate to-day, and denounced them as false in every particular. He also had several letters read from Mr. MacMillan, the last Democratic candidate for Congressman in Nevada, whom he declared to be a gentleman and a citizen of high standing, who was defeated because there were more Republicans than Democrats in the State, and not because he was unworthy to fill the position. It appeared by MacMillan's letters that he was the attorney for the Italians who were arrested last Winter, and that he was seeking the aid of Senator Stewart to prevent a repetition of like outrages upon them.

The citizens of Nevada said that Senator Stewart promised them at that time, which was early in the season, that he would try to remedy the evil by legislation or otherwise, and that the construction put upon the law by the department in causing the arrest of miners for cutting timber in the mining regions was a nullification of the whole act and ought to be stopped. Senator Stewart also had read extracts from three of the leading Democratic newspapers of his State, viz: The Silver State, the Elko Independent, and the Eureka Sentinel. These journalists commented with the greatest severity upon the persecution of the people of Nevada in dragging miners hundreds of miles from their homes and subjecting them to all the expenses and vexatious persecution. Senator Stewart also had a letter read from George A. Cassidy, the present Democratic nominee for Congress in Nevada and Bank Commissioner under the present Administration, and who has served two terms in Congress as Representative of Nevada, and is thoroughly familiar with all the facts and circumstances connected with the whole subject.

This letter fully indorsed the amendment of Senator Stewart, condemned unreservedly the attempt of special agents to drive the department, and contended that the law as it exists fully authorized the cutting of this timber.

Senator Beck, who is a member of the Committee on Appropriation and of the conference committee having in charge the Sundry Civil Appropriation bill, here interrupted Senator Stewart and read a letter from Stockslager to members of the committee, which was unusually violent and included the charges in the New York Herald.

Senator Stewart denounced the letter as false in every essential particular, and contended that there was no timber in the usual sense of the term in the region where the Eureka and Richmond companies were situated. He admitted that Mr. Hobart, the manager of the Richmond Company, was an Englishman, but declared that he had been a useful citizen of Nevada, and that his State was indebted to him for many inventions and improvements in mining; that the mines couldn't have been worked without cutting the timber in the vicinity of them; that this was what the law contemplated; that hundreds of millions of dollars had been added by the miners to the Treasury of the nation by the use of this timber; that the system adopted and now in force of harassing the people of the West by spies and informers was intolerable. Never in the history of British rule in America were such outrages committed as are constantly perpetrated by this special-agent system. The sum of \$35,000 is contained in the Sundry Civil bill for lawsuits, spies and investigations, and only \$5,000 for surveys.

Senator Stewart said that these investigations were secret and ample time and opportunity was always extended to rich rogues to buy their peace, unless the press intervened and made secret compromises impossible, while the poor and defenseless were persecuted, dragged from their homes on false charges and baffled in every possible way if they attempted to avail themselves of either the homestead or pre-emption laws. He asserted that the Commissioner of the General Land Office had no right to predicate an official document upon the ex parte report of a spy, and particularly when the statements in that document were known to be false by every citizen of the States and Territories affected by these threatened prosecutions; that the Commissioner had brought the administration of the law into disrepute by confounding the innocent with the guilty; that the name of the Commissioner of the General Land Office was fast becoming a synonym of everything oppressive, fraudulent, unfair and unjust, and that it had come to this, that no honest man could acquire a home in the Territories without persecution with thieves unwhipped of justice.

A BIG STORAGE RESERVOIR
The Twin Lakes to be Utilized Next Year.

The Enterprise says, J. B. Gallagher is setting an example for the ranchmen of Western Nevada in the work he is doing at the Twin Lakes, up in the Sierras. These lakes are each two miles long and one mile wide. They are connected by a small creek about one-fourth of a mile in length. Mr. Gallagher now has about a dozen men at work up at the lakes. He will build a dam 125 feet long and 15 feet high across the outlet of the lakes. This dam will not only flood both lakes but also some of the ground surrounding them. It will make a storage reservoir six miles long and five miles wide.

The Twin Lakes are surrounded on all sides by high mountains, and the only outlet from this great natural basin is through the one narrow pass across which the dam is being constructed. Mr. Gallagher is at present doing all the work at his own expense but expects that the land owners of Smith and Mason Valleys will stand in with him. They certainly should do so. The store alone is worth a large sum and when the reservoir is built it will be a mine of wealth on which the owners may draw for all time. Water is wealth in this region. Those who have water can always command land.

Superintendent Keating, who has been up in the mountains looking after his mines, was much taken with the Twin Lakes as a site for a grand storage reservoir. The lakes are immensely deep and Colonel Keating recommends the running of a tunnel to tap the first one (a tunnel one-fourth of a mile in length would tap it at a depth of 65 feet). That with the 15-foot dam, would equal an embankment 80 feet in height.

HUMBOLDT DISTRICT FAIR.—The Winnemucca Silver State says:

The Second Annual Fair, under the auspices of Humboldt District Agricultural Association, will commence here on October 24, and continue four days. The purses and premiums amount to \$4,500. Most of the races are free to all and ought to bring a large number of horses here from visiting parts of the State, and from the eastern slope of the Sierra Nevada and South-eastern Oregon. Liberal premiums are offered for the best horses, cattle and sheep, etc., as well as for grain and vegetables. Special premiums should also be offered for the best fruit raised in the district, as orchardists ought to be encouraged. Now let everybody go to work and assist in making the fair a success. Humboldt stock raisers can if so disposed, make a fine exhibition of horses and cattle, and farmers can do likewise with their products. There is a fair fruit crop this season, and an excellent display of apples can be made if producers will only interest themselves.

The Only Perfect Remedy
For habitual constipation, dyspepsia and kindred ills is the famous California liquid fruit remedy, Syrup of Figs. It is easily taken, and perfectly harmless. Sold by Wm. Pinniger, Reno.

HUMBOLDT'S ASSESSMENT.

Only a Slight Falling Off From Last Year.

The Silver State says: County Assessor Riley has about completed the assessment roll of 1893. There will be a falling off of about \$20,000 from the assessed value of property in 1887. Last year this county lost two or three miles of railroad in consequence of the new survey, and this year several thousand dollars worth of property, hitherto assessed in this county on the eastern line, goes to Elko and Lander. The county has lost about \$50,000 by a reduction in the valuation of cattle, and it has gained about \$15,000 in the value of real estate. Considering that this is the driest season ever experienced in the county, and that mines, mills and furnaces are shut down owing to the scarcity of water, the showing made by the Assessor is very favorable.

When Baby was sick,
We gave her Castoria.
When she was a Child,
She cried for Castoria.
When she became Miss,
She clung to Castoria.
When she had Children,
She gave them Castoria.

ROYAL BAKING POWDER
